

Storage of Nutrigain Liquid Supplement Products

Please store MycroNutrient, MycroDrip and MycroSoap in ambient conditions 15-25°C.

Avoid extremes of heating and cooling.

Shake or stir all products well before dilution and use.

If FOGGING, use WARM to avoid clogging fine nozzles.

Shelf life is between 9 and 15 months depending on conditions.

Please refer to website for MSDS for product safety information.

Product Data Specifications and Batch Analysis sheets available on request.

Please contact us directly when you have any questions.
